

Historic Advancements for Yield Gain in Peanut

Moderator: C. Corley Holbrook, USDA-ARS, CGBRU

Meeting Room: Salons 1,2,3

- 9:25** (1) A Roller Coaster Ride Through Peanut Yield History; 1951-1982 **J. Frank McGill**
Brooks Distinguished Professor of Agronomy (Emeritus)
University of Georgia (UGA)
- 9:45** (2) Genetic Contributions to Yield Gains in U.S. Peanut Production..... **C. Corley Holbrook**
Supervisory Research Geneticist
USDA-ARS, Crop Genetics & Breeding Research Unit
- 10:00** (3) Contributions of Peanut Disease Management to Increasing Yields.....**Timothy B. Brenneman**
Professor
UGA, Department of Plant Pathology
- 10:15** (4) Yield Advances in Peanut – Weed Control Effects **W. Carroll Johnson, III**
Research Agronomist
USDA-ARS, Crop Protection & Management Research Unit
- 10:30** (5) The Role of RTK-GPS-Based Autoguidance on Peanut Production in GA & AL .. **Brenda V. Ortiz**
Assistant Professor
Auburn University, Department of Agronomy & Soils
- 10:45** (6) International Peanut Yield Gains..... **H. Thomas Stalker**
Professor
North Carolina State University, Department of Crop Science
- 11:00** (7) Potential Impact of Genomics to Future Peanut Yield Gains..... **Peggy Ozias-Akins**
Professor
UGA, Department of Horticulture and Institute of Plant Breeding, Genetics & Genomics
- 11:20** (8) It All Came Together for Record Yields in 2012 **John P. Beasley, Jr.**
Professor & Extension Peanut Agronomist
UGA, Department of Crop & Soil Sciences
- 11:40 LUNCH**
