TABLE OF CONTENTS

Soil Evaluation Methods for Calcium for Peanut Production in the Coastal Plain
R. Yang, J.A. Howe, K. B. Balkcom .......................................................... 1

Effect of Gypsum Application Rate, Soil Type, and Soil Calcium on Yield, Grade and Seed Quality of Runner Peanut Cultivars

Evaluating Plant Population and Replant Method Effects on Peanut Planted in Twin Rows

Pod Maturity in the Shelling Process
E.T. Carter, D.L. Rowland, B.L. Tilman, J.E. Erickson, T.L. Grey
J.L. Gillett-Kaufman, M.W. Clark .......................................................... 26

Lignin Content and Resistance to Sclerotinia minor in Peanut
R.S. Bennett, R.D. Hatfield, M.E. Payton, K.D. Chamberlin .................... 35

Best Combination of Disease Resistance, Drought Tolerance, and Dollar Value among Runner and Virginia-Type Peanut Cultivars in Georgia
W.D. Branch, S.M. Fletcher ................................................................. 42

Peanut Response to Carfentrazone-ethyl and Pyraflufen-ethyl Applied Close to Harvest
S. Chaudhari, D. Jordan ........................................................................ 47

The Effect of 2,4-Dichlorophenoxyacetic Acid (2,4-D) on Peanut when Applied During Vegetative Growth Stages

Chemical Interruption of Late Season Flowering to Improve Harvested Peanut Maturity
M.C. Lamb, R.B. Sorenson, C.L. Butts, P.M. Dang, C.Y. Chen, R.S. Arias ................................................. 60
