General Session

Production, Challenges & Strategies
July 14, 2020 * 10:00 AM - 12:00 PM EST
Live Webinar

The 52nd APRES General Session will focus on what influences the production of peanuts…its challenges and strategies. Each segment of the industry looks at production differently whether its weather, world markets, diseases, consumer trends, peanut supply, prices, etc. etc. There are numerous factors and the challenge is to find the right strategy for your business. Our guest speakers will approach this topic individually, yet leave you with a complete picture of where the industry stands and insights on planning for the future.
