

**Corteva™ Agriscience
Research & Education Awards Committee
June 2021 Report**

The committee will meet after the board of directors meeting to request nominations for the three members rotating off (Dufault, Faske and Tillman). We will also discuss the development of a form letter to be sent to department chairs in 2022, so more nominations can be received for this important award. We ask the board and those meeting here today, if there is a form letter already developed for other committees, that they share it with us so we can maintain a consistent format for APRES.

In 2021, we had only one nomination, which was for the Education category. The committee has reviewed the packet and voted. The recipient(s) will be announced on Friday, July 16th at the end of the meeting.

Thank you,

Nick (Corteva™ Agriscience Awards Committee 2019, Chair 2020 and 2021).
